Dear Lester Snow,

I don't believe that a new dam would help with water usage. I oppose CALFED's plan on the Auburn dam. I think it will not be a wise choice in funds. There are so many other things that the money can be used for. The Park in Newark that needs so much help. The visitor center is falling apart and the public just feel the park is dirty. Please look at this park and make a clean and interesting place again.

Henry Nieker
